

Barry Swap is shown here receiving cheques from Mrs. Alma Schadeck (R) representing the Tomahawk and District Club and Mrs. Leo Jensen representing the Moon Lake Baseball Club. Also shown are Tom Hutton (L) and Maurice McCullagh (centre) who also presented cheques to Barry from the Drayton Valley Athletic Association represented by Mr. Hutton and the County of Parkland represented by Mr. McCullagh.

Local Baseball Player Selected for B.C. Finals

The Drayton Valley Bison Baseball Team wish to thank the Drayton Valley Athletic Association, the County of Parkland, the Moon Lake Baseball Club, the Toma-

hawk Recreation Board and the Community of Ramona for the financial help provided to send Barry Swap to the Western Canadian Bison baseball Championships with

the Britannia Youngstown Bison Baseball team of Edmonton in Victoria on Labor Day weekend.

Barry Swap played for the Drayton Valley Bison Baseball Team during the 1972 season. The Drayton Valley team lost out to the Britannia Youngstown team 12-10 and 7-5 in the best of a three game series for the Alberta Bison Baseball Championship late in July.

The Edmonton team, as the provincial representatives in the Western Canadian championship series had the option of selecting three players from the other Bison baseball teams across Alberta. Barry Swap was selected from Drayton Valley, as was one player from Lacombe and one from Peace River.

The Edmonton team will leave by air from the Municipal Airport on Thursday, August 31 and will play the first game of the Interprovincial series at 9:00 p.m. on Friday, September 1st at Victoria Park in Victoria. The Edmontonians will face the Manitoba entry in the first game of the series.

We extend our best wishes to the Alberta representatives and once again we join the local team in expressing our thanks to all parties involved for making it financially possible for a local boy to take part in this excellent interprovincial tournament.

District 4-H Members Win Scholarships

Scholarships ranging from \$150 to \$600, have been awarded to 21 4-H members selected from 4-H Clubs across Alberta, Mervyn H. Jaque, Director of the 4-H and Junior Forest Warden Branch, Alberta Department of Culture, Youth and Recreation announced last week.

Among the winners were Audrey Jean Anderson of Entwistle, who will attend Camrose Lutheran College and Terrance George Bentley of Seba Beach who will attend the University of Alberta. Both received Alberta Wheat Board Surplus Monies Trust Scholarships.

Rev. Dale Mohr (R) makes a presentation to Father Edward Lynch at a special farewell gathering in the Lutheran Church last Wednesday evening.

Farewell Service For Father Lynch

Drayton Valley probably made another first August 23 when the Emmaus Lutheran congregation performed farewell services for St. Anthony's Roman Catholic priest, Father Edward Lynch.

As Father Lynch said, following the presentation of a plaque to him by Rev. Dale Mohr on behalf of the congregation, "whoever heard of a Lutheran congregation having a farewell party for a Catholic priest!"

Father Lynch was transferred to Wetaskiwin Sacred Heart parish August 26. He said he did not want to leave Drayton Valley, but that this was the fourth time the bishop had requested his transferral.

When local residents

heard of his transferral, they asked what they could do to keep him in Drayton Valley. Father Lynch explained that there was no stopping the move, but that they could write letters and phone the Bishop to let him know the feelings of the town.

He explained that, in a recent telephone conversation with the Bishop, the Bishop had said that never before had he had such a backlash from the people -- Catholics as well as Protestants -- on the transferral of a priest.

Reverend McQuaig of the Anglican Church and Joe Clark, federal PC candidate for Rocky Mountain riding, both expressed feelings of loss to the town at the moving on of Father Lynch.

THE WESTERN REVIEW

DRAYTON VALLEY, ALBERTA -- AUGUST 30, 1972

Two Hundred Entries for Tenth Annual Flower Show

The Drayton Valley Flower and Horticultural Show, sponsored by the Drayton Valley Women's Institute, was held August 23 at the Elks Hall with some 200 entries judged for ribbons and trophies.

Hudson's Bay trophy for the best rose was presented by MLA Rusty Zander to Rita Lindberg of Drayton Valley.

Joe Clark, Progressive Conservative candidate for the federal riding of Rocky Mountain, presented trophies on behalf of the following: Drayton Hardware, best gladiola, Mrs. Eugene Rendflesh, D.V.; Valley House of Flowers, best dahlia, Mrs. Ann Fry, Violet Grove; Valley House of Flowers, best flower arrangement, Mrs. Kaarsemaker, D.V.; Drayton Valley W.I. Grand Aggregate for Flowers, Mrs. J. Namchuk, Tomahawk; and Drayton Valley W.I. Grand Aggregate for Vegetables, Mrs. N. Schoepp, Tomahawk.

The best pansies trophy went to Mrs. Doreen Gustafson of Rocky Rapids, presented by Mrs. Dot White on behalf of Reed's County Gardens of Camrose.

Joe Clark drew the name for the door prize donated by Pembina Drug, and prizes donated by the W.I. Mabel Stordasvall won the door prize, while the bird bath went to Mrs. Ann Kelso and the cedar patio tub went to Doreen Fiveland.

W.I. members would have liked to have seen more participation. Entries this year were only a few short of last year's total, presumably due to water shortage and weather conditions. However, the field crops class was poorly represented. The W.I. hoped more farmers would enter as the class had been added expressly for them, and the show had been arranged for a Wednesday, market day in town.

D.A. Earl Lowe of Stony Plain expressed surprise at the lack of entries in field

One of the exhibits at last week's flower show held in Drayton Valley.

crops, as he had reported good crops in this area.

More entries were received in the vegetable section this year, and hopes are for more entries again next year. It is hoped the men will show more interest in this section.

Judges for the tenth annual show were Mrs. Annabelle Taylor of Evansburg and Mrs. Mary Burrows of Drayton Valley for the flowers and vegetables, and D.A. Earl Lowe for field crops.

Results are as follows: FLOWERS--Asters: Mrs. J. Namchuk, Tomahawk; Hilda Dusterhoff, second, D.V.; Bernice Chipchase, third,

Entwistle. Begonias: first, Margaret Surgenor.

Calendulas: 1, Mrs. J. Namchuk, Tomahawk; 2, Bernice Chipchase, Entwistle; 3, May Urchyshyn, Drayton Valley.

Carnations: 1, Mrs. Edith Deby, Drayton Valley; 2, May Urchyshyn, Drayton Valley; 3, Hilda Dusterhoff, Drayton Valley.

Dahlia (8" and over): 1, Margaret Surgenor, D.V.; 2, Anna Fry, Violet Grove; Dahlia (under 8"): 1, Anna Fry, Violet Grove; 2, Margaret Surgenor, D.V.; 3, Mary Mackenzie, D.V.

Entwistle School Opens Wednesday

Contrary to tentative plans to have the Entwistle School opening coincide with the Evansburg Schools, a delay in construction at the new Grand Trunk High School at Evansburg has resulted in no change in the opening date.

Entwistle School will expect students to arrive on the morning of Wednesday, September 6th, the same as other schools in the County of Parkland. The children will be dismissed at noon the same day. High School students from the County of Parkland who plan to attend the Grand Trunk High School will be picked up by bus on the morning of September 6 and returned home at noon the same day. The teaching staff will be at the Entwistle School on Tuesday September 5th preparing for approximately 250 students expected the following day.

Lindale News

Janice and Joe Biseau had a most enjoyable holiday, one of the highlights being a trip to Disneyland. They found the temperatures almost unbearably hot in California. Now they are visiting relatives and friends in the Tomahawk and Lindale areas before returning to La Crete, to take up their teaching duties for another school term.

Sympathy is extended to the Killand families on the loss of a brother in an accident in B.C.

Dorothy and Lester Cropely of Berrymoor celebrated their twenty-fifth wedding anniversary with a dance in Lindale Hall.

Mr. and Mrs. Colin McKeag returned home from a visit to Manitoba.

Mr. Ronald Williams, former principal of Lindale school visited in this area recently. This summer Mr. Williams holidayed in England, Scotland and Wales, before making his yearly visit to Lindale to renew acquaintances and visit old friends. He is now principal at Heisler school.

Rescue Course Here in September

Experience has shown that in communities where large scale accidents have occurred, the services of people who have been trained in these techniques have proven invaluable.

To ensure that we have a number of men trained in rescue techniques and the proper handling of casualties, it is intended to hold a rescue course in Drayton Valley during the evenings of September 11, 12, 13 and 14.

To see that the casualties are properly taken care of after rescue, we will also need about 20 ladies to train in a course of Home Nursing which will be commencing in mid-September. The exact date will be known later and persons registering for this course will be advised.

Hundreds of ladies in the province who have taken this course have found it very useful in the home when a sudden accident or illness

has occurred. A number of the ladies taking this course will be invited to participate in a 44-hour hospital training program which will follow the home nursing course so that they will be oriented with the hospital during exercise.

An early response to this appeal would be appreciated by phoning Mary Burrows, E.M.O. Co-ordinator for the Town of Drayton Valley, at 542-3618 after 6:00 p.m.

NOMINATIONS ARE INVITED FOR THE ANNUAL ALBERTA GOVERNMENT ACHIEVEMENT AWARDS

Achievement Awards are made annually to those Albertans who, during the past year, have earned outstanding recognition on a national and/or international basis for their accomplishments. There are two categories:

PROFESSIONAL OR OCCUPATIONAL SERVICE

This award to be made to an individual or group of individuals whose contribution, on a professional or voluntary basis, has been recognized during the period September 1, 1971 to August 31, 1972, or whose contribution has been exceptional enough to warrant recognition. (i.e. contributions over many years).

COMPETITIVE

This award to be made to individuals or teams, competing at the amateur level in nationally recognized Canadian or international competitions between September 1, 1971 and August 31, 1972.

Individuals must be first place winners in Canadian competitions; first, second or third-place winners in international competitions.

Each nominee must be a resident of Alberta, and must have a sponsor and seconder. All nominations must be submitted by September 13, 1972.

Mail the attached coupon today or write for full details and nomination forms.

MIKE GORMLEY

Mike Gormley Awarded Scroll

Mike Gormley, Recreation Director for the Town of Drayton Valley, was recently awarded a Canadian Federation of Amateur Baseball scroll in recognition of outstanding services to amateur baseball in the area.

The scroll stated "this dedication has contributed to

the advancement of this great sport and to the physical and mental development of Canadian youth."

Mr. Gormley helped promote minor baseball in the area prior to county formation and has helped to revamp the little leagues and get them into oilfield competition.

Fallis News

Joey and Cindy MacDougall of Hinton visited with their grandmother, Mrs. Pint.

Mr. and Mrs. Mashtaler had their daughter, Olga and family visiting with them over the weekend.

Mrs. Fell had her niece and nephew from Ireland visiting with her following their visit to the United States.

Bingo was held at Fallis Community Hall with a large crowd in attendance. Next bingo scheduled September 1 with two jackpots eligible.

Happy birthday wishes to Bernie Yates who celebrates her birthday September 7. Mr. and Mrs. Gordon Gun-

ther had some people visiting at their home last week.

Mr. and Mrs. Murry Roberts of Wabamun were recent visitors to the home of Mr. and Mrs. McCulloch.

Mrs. Soroka had some friends from the lake shore visiting her over the weekend.

Mr. and Mrs. Lounsbury had relations stop by and visit one day last week.

Better to remain silent and have people think you are stupid than to start talking and have the doubt removed forever.

Summary Regular Meeting Parkland County Council

Minutes of regular meeting of the Council of the County of Parkland No. 31, held in the County office at Stony Plain, Alberta on Thursday, August 17. Minutes as recorded by secretary and not yet adopted.

Members present were Reeve Leslie N. Miller, Deputy-Reeve Ivan Vowk, Councillors Jacob W. Fuhr, George Mann, Robert A. Bailey, Maurice McCullagh and Peter Bakker.

SEWAGE DISPOSAL SYSTEM AT WABAMUN

Mr. Wm. Hardcastle, representing Calgary Power Ltd. was present and discussed with Council matters concerning the proposed sewage disposal system at Wabamun and a lagoon site for this system.

Mr. Hardcastle stated that Calgary Power Ltd. would have no objection to this proposed site being located on Calgary Power property providing same has been mined out. He further stated that Calgary Power Ltd. would accept the responsibility and costs for building the sewage line from the gathering point of their housing development to manhole number 25 of the County system.

The matter of water meters being installed in the Calgary Power houses was discussed and it was intimated that one overall meter be installed rather than individual meters in each house for reason of an agreement between Calgary Power Ltd. and their employees living in the houses.

It was agreed that the County contact the Provin-

cial Department of the Environment for approval of a lagoon site to accommodate the sewage disposal system at Wabamun.

CRAWLER TRACTOR ON COUNTY ROADS

Mr. Bill Tupper representing W. Tupper Construction was present and discussed with Council the matter of walking their Crawler Tractors on County roads in the south east area of the County.

Complaints were received from County ratepayers stating that this is causing considerable damage to the roads in that area.

It was agreed that the Public Works Department be authorized to inspect the roads where the Crawler Tractor was walked and submit a report to Council on whether any damages have been caused to the roads due to same.

AMBULANCE SERVICE IN EAST END

Mr. Gordon Hammer of Spruce Grove was present and requested County assistance in supplying an ambulance service in the east end of the County.

Council agreed in principle with such a service and requested Mr. Hammer to submit a proposal and detailed report on the operation of this proposed ambulance service, at which time further consideration would be given to his request.

The minutes of the last regular meeting held on August 3, 1972, copies of which were forwarded to each Councillor, were accepted. Proposed construction of

the road south of sections 28 and 29-51-4-5. The Public Works Manager estimated that the cost of upgrading this road to a passable standard would be a maximum of \$2,500.00.

It was agreed that this upgrading on the old existing road south of sections 28 and 29-51-4-5 be carried out.

By-law No. 20-72 authorizing the Assessor to use the assessed values of taxable lands and improvements in 1972 as the assessed values of lands and improvements for taxation purposes in 1973 received first, second and by unanimous consent of the Councillors present a third reading and finally passed.

Letter dated August 10, from Mr. W. Merlo of Edmington requesting to lease the road allowance west of the SW 17-51-26-4 was presented to Council for consideration.

It was agreed that this application be held in abeyance until the approach road to his property, the SW 17-51-26-4, is constructed.

It was agreed that the County make application to

the Development Control Officer for a permit to establish a nuisance ground in the NW 15-52-7-5.

By-law No. L-17-72 providing for the leasing of Lots 1-5, 9-26, 30-40, Block 6, Plan 2443A.E., Entwistle to Mr. Gordon MacDougall for one year at a rental fee of \$25.00 received first, second, and by unanimous consent of the Councillors present a third reading and finally passed.

By-law No. 21-72 authorizing the making of Charitable Grants to 4-H Clubs, Community Libraries, etc. and exemption of taxes on Youth Camps, Church Mansees, etc. in the amount of \$2,650.58 received first, second and by unanimous consent of the Councillors present a third reading and finally passed.

The Police Department Report for the month of July, 1972 was accepted.

Letter dated July 31, from Mr. Phillip Mykitiuk of RR #1, Duffield, requesting to lease that portion of the road allowance adjacent to his acreage on the east side of the SE 28-50-4-5 was presented to Council for consideration.

It was agreed that this request be referred to Councillor McCullagh for recommendation.

LEGISLATIVE REPORT

By Kevin Peterson of The Calgary Herald

A six-month investigation by the Alberta Energy Board has confirmed what Alberta politicians have been arguing for years: the province's natural gas is underpriced.

In a report resulting from months of study and 21 days of public hearings, the board says the current average price of natural gas at the well is 16 cents per thousand cubic feet, "less than the field value of the gas by some 10 to 20 cents."

A price increase of 10 cents for Alberta gas would bring in a net benefit of \$200 million in 1975, the report says.

Total benefits of \$225 million would include \$32 million in additional royalties (at the current 16 2/3 per cent rate) as well as increased income taxes and land bonuses.

Other benefits would include increased exploration

for gas in the province and the indirect positive effect this would have on the province's economy.

The board also concludes Alberta consumers would pay a surprisingly small part of the price increase -- only \$20 million in 1975.

The report's projections say residential consumers would pay \$2.5 million more (about \$6 per household) while commercial and industrial users would pay \$7.5 million more.

The low increases immediately for provincial consumers stem from the fact most gas utilities earn substantial reserves or have long term contracts.

By 1985, the board estimates the full effect of the price increase be felt. The gas producers would be ahead \$300 million annually, the province \$50 million, but consumers would be pay-

ing \$60 million more per year.

The board feels competition must be the main stimulus to increasing gas prices and leaves little doubt about how the competition can be obtained: "The board is of the opinion that a high degree of competition in the buying of Alberta gas will occur only if additional significant export of Albertagas to the United States is authorized."

It was the National Energy Board's refusal of four major applications to export natural gas last fall that led to the provincial government's request for the provincial board to start a price review.

The board's report sug-

gests the province, if it concurs in the findings, should increase pressure on the NEB to open the way for more lucrative gas exports instead of saving gas at low prices for the Canadian market. The report also says producers and sellers will pattern their negotiations after the board's recommendations.

It can take a long time to release a new wheat variety -- eight to 10 years work by a breeder, followed by three years of cooperative yield tests from Quebec to Alberta. Seed is increased during the three-year test period to ensure enough for distribution when the variety is licensed.

Editorial — Comment

The Olympics

Via satellite T.V. we have been given an opportunity to witness the opening of the Olympic games in Munich.

Although times and circumstances have changed many things in our world, it is heartening to view a gathering of the world's athletes to compete under the Olympic banner guided by the oath of the Olympiad. Since the beginning of the games a strict code has prevailed. Money and power have been used on many occasions in an attempt to change the rules to accommodate one class or another. The rules have been maintained in spite of the temptations put forward.

Many of the nations attending were (a few short years ago) at war with one another, yet here in the spirit of competition they are joined by the common desire to excel through sport.

There are no real losers at the Olympic games. Any athlete, who through self discipline, hard work and strong desire is picked as a candidate in any one of the events, has won for himself or herself a place in the annals of sport history.

It is also a citation for today's youth, as records fall by the wayside. Records which each succeeding generation had deemed the ultimate.

Back to School

"School days, school days, good old golden rule days" . . .

The time is near at hand for the back to school rush. Mothers will be giving their sigh of relief, Dad will be checking his pocketbook while youngsters will be looking for the latest styles.

The smell of newly decorated rooms and the stares and looks that greet the newcomers will all form part of the excitement of the first day.

New teachers will get their appraisal of their new charges and likewise the students will give the teachers their "once over".

Then comes the rush for supplies, new books, new pens and pencils, etc. accompanied by the vow that this year the notebook will be a record of neatness and good writing.

Yes, the first day of school is the same now as 100 years ago!

MARSH WORLD by ANGUS SHORTT Ducks Unlimited

CARNIVEROUS PLANT — BLADDERWORT (Utricularia vulgaris)

This aquatic plant is common in shallow marsh areas, sometimes forming large mats of several hundred plants. It has attractive yellow flowers, borne on a 4 to 12 inch leafless stalk above water. The stems float beneath the surface and consist of an intricate network of branches on which are many small bladders, each of which has a tiny trap door opening inward but not outward. Minute aquatic insects and other organisms that enter the bladders are trapped, decompose, and particles are absorbed by the plant.

Regular Meeting County Council

Cont. from Page 3

PROPOSED PROVINCIAL BOUNDARIES COMMISSION
Letter dated August 9, 1972 from the Alberta Association of Municipal Districts and Counties requesting Council's feeling to the Province establishing a Boundaries Commission to study boundary realignments, was presented to Council.

Council agreed that before it made its views known that clarification be obtained as to whether this proposed Boundaries Commission would review the boundaries of rural municipalities only or if the boundaries of Cities, Towns and Villages would also be included.

By-law No. L-18-72 providing for the leasing of Park Reserve Block R9, Plan 56R.S. in the SE 26-51-26-4 to Mr. Larry Paquette for one year at a rental fee of \$25.00 received first, second, and by unanimous consent of the Councillors present a third reading and finally passed.

COUNTY BROCHURES

It was agreed by Council that a new supply of County Brochures be printed for distribution to the public as the present supply has been depleted.

Mr. Leslie Ibsen of Duffield was present and submitted to Council a petition signed by ratepayers in the area requesting construction in 1972 of the road west of the NW 3 and west of Section 10-52-3-5.

It was agreed that this road cannot be constructed in 1972 as funds are not available, however, same will be considered for the 1973 construction program.

Mr. Albert O'Donnell of Spruce Grove was present and submitted to Council a report concerning flooding problems on his property, the E1/2 12 and E1/2 13-52-27-4.

Mr. O'Donnell requested that the County clean the present drainage ditch and install some new culverts to help alleviate the problem.

It was agreed that this matter be referred to the Public Works Committee for inspection and recommendation.

NATURAL GAS SUPPLY REQUESTS

Members of the Board of Directors of West Parkland Natural Gas Co-op and Mr. Les Collins, Alberta Gas Co-op Supervisor, were present and further discussed with Council their proposal to supply gas to County residents located in ranges 27, 28, 1, 2, 3, and 4 within the County.

It was agreed that Council take no action on this request until the Co-op submits a written report on a feasibility study, now being conducted, and the Council is informed as to its position in this matter.

Members of the Board of Directors representing the Ste. Anne Natural Gas Co-op were present and requested permission to install their gas lines to supply County residents located north of Highway 16 between Highway 43 and the Fifth Meridian.

Mr. Les Collins, Alberta Gas Co-op Supervisor was also present at this time.

It was agreed that as both the West Parkland Natural Gas Co-op and Ste. Anne Natural Gas Co-op Ltd., wish to serve the same area that the two Co-ops resolve the issue of boundaries.

Letter dated August 3, 1972 from the Water Resources Division advising of an inspection of flooding prob-

lems in S1/2 22 W1/2 23, W1/2 14-51-27-4 by one of their engineers, was presented to Council.

It was agreed that this matter be referred to the Public Works Committee for inspection and recommendation.

REQUEST FOR POLICE PROTECTION

A request from the summer village of Betula Beach for the County Police to patrol the village was presented to Council for consideration.

It was agreed to advise the summer village of Betula Beach that the County is not in a position to provide police protection to other municipalities.

A final report on the repairs and renovations authorized on the recreation office building was submitted by Councillor Mann.

It was agreed that this report be accepted and actions of Councillor Mann be endorsed.

A request for County Assistance to enable Barry Swap to participate in the Western Juvenile Baseball Championships to be held in Victoria, B.C. was presented to Council.

It was agreed that the County pay the air fare in the amount of \$58.00.

Air Cadets Start New Season

Air Cadet activities start again, 7 p.m., Frank Maddock High School, Thursday, September 7th. Recruits are urgently required to bring squadron up to strength - any young men between ages 13 years (by January 30, 1973) and 18 years are invited to attend this parade or any Thursday at 7 p.m. after this date, preferably with a parent to complete necessary application forms.

Instruction in the following subjects is offered - drill, written and practical; small arms; early Canadian aviation; service information; leadership; on being a cadet; instructional techniques; navigation; meteorology; radio; theory of flight; engines; air-manship; first aid; possibly hunter training; survival; and also participate in the Duke of Edinburgh's Award, plus range shooting.

Competitive opportunities are provincial, drill, sports and shooting competitions. There are also physical education, flying, gliding, senior leader, technical and bush survival courses with exchange visits to Canada, U.S.A. and overseas. Approximately 25 per cent of the members go to a two-week summer camp at CFB Penhold each year and throughout training year there are familiarization flights, gliding flights, cit-

flights, gliding flights, and citizenship tours. Social activities include visiting speakers and films, inter squadron visits, visits to government and industrial establishments, and local survival camps.

In July squadron adjutant Lt. Wood was transferred to Stony Plain. His experience and help will be missed, but we wish him well in his new location and endeavours.

2nd. Lt. T. Oscar successfully completed an officers training course this summer and will replace Lt. Wood as squadron adjutant. Officer/cadet D. Hardie has joined the staff and will replace 2nd Lt. T. Oscar as squadron supply officer. He was supply officer for the Rocky Mountain House Sea Cadet Corps previous to returning to Drayton Valley. His past experience and enthusiasm is a great asset to 733 squadron.

The Cadet instruction list officers for 1972-3 Cadet year for 733 RCAC Squadron are: Commanding Officer, P. Turner, Captain; Squadron Adjutant, T. Oscar, 2nd Lieutenant; Chief Instructor, K. Dusterhoff, Lieutenant; Supply Officer, D. Hardie, Officer/Cadet.

Civilian Instructors: M. McCullagh, D.F.C. and J. Erickson, Navigation and Meteorology; T. Obst, Radio;

S. Sowada, Engines; R.-C.M.P. Officers, small arms, safety, etc.; First Aid Instructor, Hunter Training Instructor, and Hunter Training Instructor.

In July, nine cadets went to CFB Penhold for two weeks' summer camp. Sgt. R. Martin and Cpl. J. Van De Castle successfully completed the N.C.O. course, LAC's R. Smith and G. Smith successfully completed the two-week Band Course. LAC's Thesen, Thompson, Brian Erickson, Brent Erickson and Fuls enjoyed the camp and their experiences should prove a big help this coming year.

Seems that the navigation instruction will have to be improved as some managed to miss the Edmonton-Drayton Valley bus on their return home.

LAC Tyler was awarded an eight-week Band Course. Flt/Sgt. MacMillan, who was one of 90 cadets from Alberta awarded a Senior Leader's course had to return home from CFB Borden after two weeks, due to a sprained ankle.

Tentative plans for the coming year include glider flights in Drayton Valley in September, Annual C.O./League conference in September, local flying in October, provincial awards night in October, poppy sales

and Remembrance service in November. It is hoped that finances can be raised to buy a four-seater aircraft for squadron use, to allow practical application of the theoretical instruction as well as provide an incentive and goal for the cadets. The squadron is fortunate in having many local qualified pilots willing to donate their time to fly the cadet aircraft if and when obtained.

Thanks to the Squadron Civilian Committee, chaired by Mr. V. Ranks, ably assisted by Mrs. B. Brooks, Sec/Treas., and Committee Members: Mrs. L. Thompson, Mr. B. Cable, Mr. E. Chaput, Mr. J. Nixon and Mr. J. Coppens, for their efforts in keeping the squadron going and for raising funds for the various activities as required.

Thanks also to the population of Drayton Valley and area for supporting the fund raising activities and to the Western Review for covering our activities.

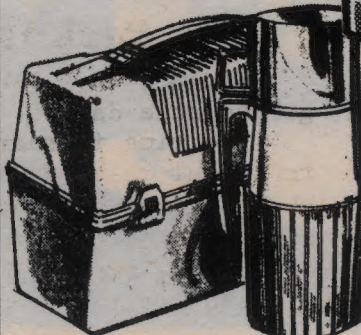

Sincerest thanks to our joint sponsors, The Royal Canadian Legion Branch #269 and the Legion Ladies Auxiliary for their past and continued sponsorship and help throughout the years.

Don't forget the first 1972-73 parade at 7:00 p.m. Thursday, September 7th at Frank Maddock High School.

'Back-to-School' Preparations Underway Throughout County

As the summer vacation draws to an end, the County of Parkland Schools begin "back to school" preparations.

Schools must be ready to accommodate the anticipated enrollment of 6,467 students as compared with 5,635 students last term. Although most schools will have a small enrollment increase, Spruce Grove, Stony Plain, and Winterburn must find facilities for an additional 462, 282 and 223 students, respectively.

The following schedule lists the organization of Teacher-Student days for the 1972-73 school term:

School Opening Date: September 5; Students' Last School Day: June 28; Teacher's Clean-up Day: June 29.

SPECIFIC DATES OF OPERATION

	Pupil Days	Teacher Days
September	17.5	19
October	21	21
November	22	22
December	16	16
January	21	21
February	18	20
March	22	22
April	15	15
May	22	22
June	20	21
	194.5	199

1972: Teacher Preparation Days: September 5, September 6, p.m.; Student Registration Day: September 6, a.m.

1972: October 9, Thanksgiving Day; December 22 - January 2, Christmas Vacation.

1973: January 3, School Begins; February 1 and/or 2, Semester Change; February (2 days), Teacher Convention; April 20 -27, Easter Vacation; May 21, Empire Day; June 29, Teacher Clean-up Day.

TRACKMEET: One Day Available.

INSERVICE INSTITUTE: In Consultation with the superintendent.

PARENT-TEACHER CONFERENCE: One Day (unassigned).

DRAYTON VALLEY ELEMENTARY SCHOOL

In November 1971, Drayton Valley Elementary School expanded and now includes the former junior high school building. This two building unit will be the 1972-73 home of an expected 750 pupils (Grades 1-6), 28 regular classroom teachers, a music and physical education specialist, a full and a half-time secretary, a full and half-time librarian, a business assistant, three janitors, two part-time sweepers, and a principal and vice-principal. Each classroom will be the learning center for an average class of 27 pupils.

At the disposal of the teaching staff is a variety of textbooks and materials, as well as films, film-strips, and a library of over 7,000 books and magazines. The Gage Language Experience Reading Program will be introduced in one class at the grade one level for the first time this year.

H.W. PICKUP JUNIOR HIGH SCHOOL

Formerly the Frank Maddock High School in Drayton Valley, the building was occupied by junior high grades in 1971 and renamed the H. W. Pickup Junior High School. It will accommodate an expected 397 pupils (Grades 7-9), 19 teachers, 1 library-custodian, 1 secretary, 1 head caretaker and 1 assistant caretaker.

Courses offered are: both instrumental and choral music; drama - dancing and acting; sciences such as Microbiology, Physics, Ge-

ology, Meteorology, Microscopy, and Chemistry; French; Language Arts - Communication Media; Physical Education; History; Social Studies; Health; Art; Industrial Arts; Home Economics; and Mathematics. The above options will help give every student a chance to develop his own personal talents and skills.

LODGEPOLE SCHOOL

Lodgepole School is situated 25 miles west of Drayton Valley and has been in operation for sixteen years. It accommodates about 70 students (Grades 1-8), 3 full-time teachers, 1 part-time teacher, 1 library-custodian and secretary, and 1 caretaker.

Local points of interest for the students to visit are numerous gas plants, including the Hudson's Bay Oil and Gas Plant, Calgary Power Plant and the Brazeau Dam. Science explorations are made possible by the surroundings.

The library and gymnasium are made available to the public. Community-wise the school has been used for films, church denominations, Brownies and Cubs.

SEBA BEACH SCHOOL

Seba Beach School is located about mid-way between Drayton Valley and Stony Plain; two miles south of Highway 16. The school has a present enrollment of 316, 18 teachers, a school secretary, a librarian, a caretaker and two assistant caretakers.

Seba Beach School has several unique features: 1) It is the only school in the County offering grades 1-12 in the same school under the same administrative personnel; 2) The school offers a Comprehensive Arts Program for grades 1-12. This program which includes ceramics and print making, has been successful enough to have some of the students' work chosen for a Cross-Canada touring Art show; 3) The proximity to the summer resort facilities allows swimming to be included in the Physical Education program; 4) A special feature is a weekly spelling contest for all grade levels.

Seba Beach normally offers an academic and I.A. program as well as options ranging from French through Leathercraft.

The I.A. Shop and the Home Economics areas also serve junior high students from surrounding County schools.

Field trips are taken to the nearby Calgary Power Plant, coal mines, Legislature Buildings, Planetarium, and Alberta Game Farm.

ENTWISTLE SCHOOL

Entwistle School is one of the smaller schools located in the middle part of the County, with 235 children (Grades 1-9) and 10 teachers.

At the primary level (Grades 1-3) The Gage Language Experience Reading program is gradually being introduced. This program will assist pupils in developing both reading and language skills.

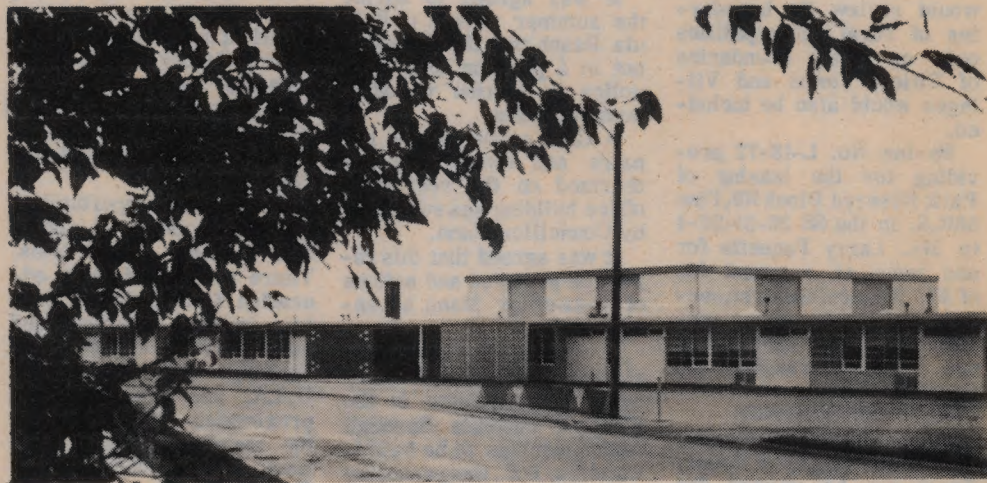

For the upper elementary (Grades 4-6) and junior high (Grades 7-9) the basic core subjects offered are: Language Arts, Mathematics, Science, Social Studies, and Physical Education-Health-Guidance. Supplementing these basic courses is a list of options: Arts and

Crafts, Music and Oral French, Drama, Language, Science and Mathematics options are offered to Grades 7-9.

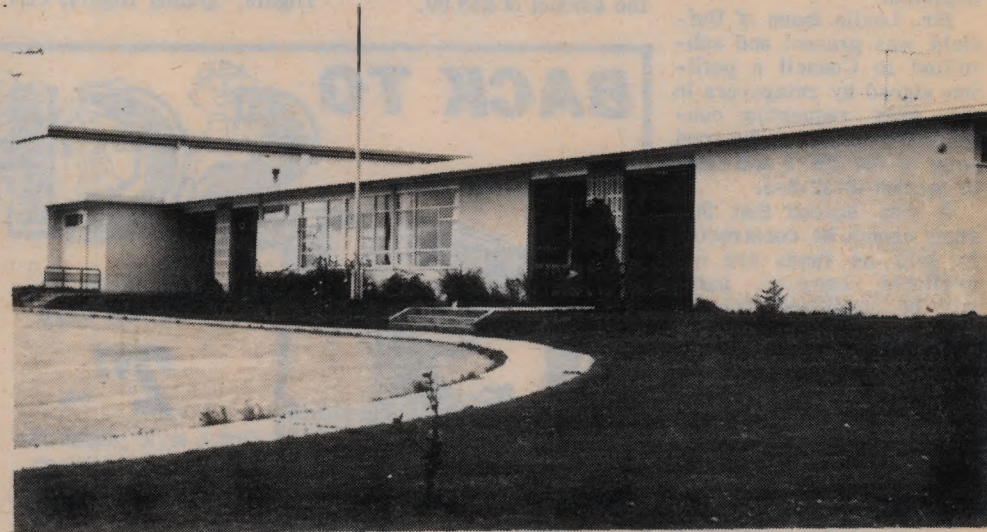

One of the most recent developments is the up-grading and improvement of the school library. Students are being instructed in Library Science (correct use of the library resources) and both students and staff are enjoying the benefits.

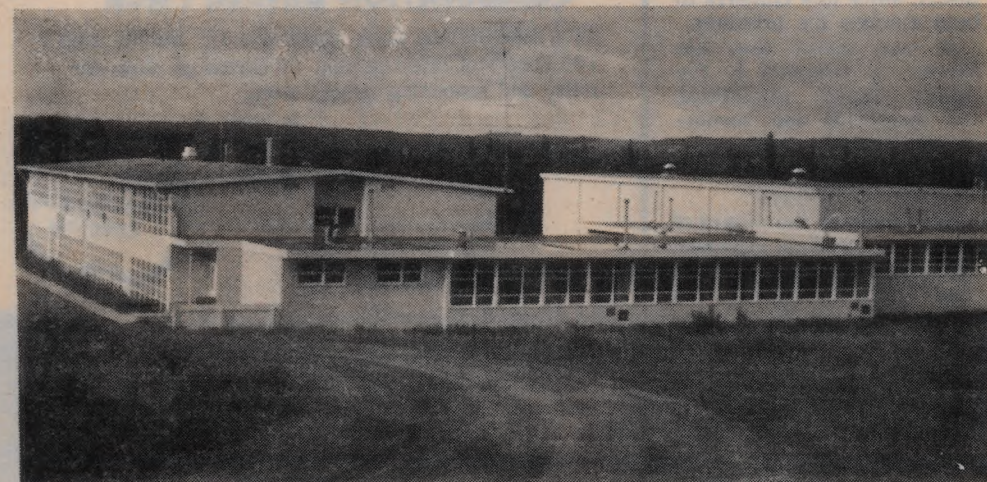

Swimming is a part of the phys. ed. program at Seba Beach.

SCHOOLS OPEN DRIVE CAREFULLY

Canadian Farm Acreage Lowest Since 1931

An increase in the number of farms with 760 acres or more in area and a sharp decrease in the number of smaller ones featured the fifth in a series of reports on the 1971 Census of Agriculture issued by Statistics Canada.

Total land area used by Canadian farmers dropped to 170 million acres from the 174 million reported in 1966, to produce the lowest acreage figure recorded since 1931. Despite this reduction in total acreage the trend to larger farms continues. Of the 366,128 farms covered by the census 17% were 760

acres or more in size, compared with 13% five years earlier and 11% in 1961. Farms with less than 760 acres accounted for 83% of the 1971 total, down from 87% of the farms in 1966 and 90% in 1961.

For the first time Manitoba and Saskatchewan reported decreased acreage in comparison with the previous census, although the decreases were relatively slight. Manitoba's farmlands were some 75,558 acres below the 1966 figure and Saskatchewan's by about 352,488.

Alberta and British Columbia continued to show increased farm acreage, following their historic trends. Newfoundland also reported an increase as the result of unimproved land being brought into agriculture for the development of community pasture land.

The acreage of improved farmland held steady at 108 million acres virtually unchanged from 1966. Improved farmland includes land cultivated and sown to crop for harvest in 1971, farmland cultivated and seeded for pasture use in 1971, summerfallowed land with no crop harvested in 1971 but

being cultivated or worked during the year for weed control and/or for moisture conservation, plus other land used for barnyards, home gardens, lanes and roads on the farms. Since there was a smaller number of farms in 1971 than five years earlier, the average acreage of improved land per farm in the six eastern provinces rose from 99 acres in 1966 to 108 acres in 1971. In the four western provinces the improved acreage of the average farm increased from 406 acres in 1966 to 463 acres in 1971.

The area of cropland, one of the components of improved farmland, at 69 million acres, was only slightly less than in 1966. The four western provinces experienced an increase in cropland which was however, more than offset by a decrease in the other provinces.

Improved pasture land increased over past censuses to a peak of 11 million acres in 1966. The 1971 Census reports a decline to 10 million acres with increases reported only in Newfoundland, Saskatchewan and Alberta.

Summerfallow acreages have shown small fluctuations since 1941. In 1971 there was an increase to 27 million acres from 26 million in 1966.

Unimproved land on Canadian farms, which has decreased steadily since 1941, fell to 62 million acres last year. Of this total, 12 million acres were woodland and 50 million acres consisted of unimproved hay land, native pastures, marshes, etc.

Scotland's Callanish Stones 3,000 Years Old

Next to the famous Stonehenge in Wiltshire, England, the best preserved and most elaborate megalithic temple in Britain is to be found on the Isle of Lewis in Scotland's Outer Hebrides.

The temple, believed to have been built by a pre-

Celtic people of Iberian stock 3,000 years ago, features a circle of standing stones up to 15 1/2 feet high from which avenues and alignments radiate in north-south and east-west directions.

The Lewis people call the remains the Callanish Stones

and the picture here shows a section of the stones as they appear to an approaching visitor.

These stones are one reason for the growing interest among tourists in the Isle of Lewis and the other Hebridean islands.

Whitby News

Ron and Gert Sullivan and children were visiting at Bud and Bernice Sullivan's last week.

Charles Sullivan is in an Edmonton hospital.

Luella Scott and Irene Siebels drove to Calgary last Monday and returned Tuesday.

Elsie Dusterhoft entered some of her baking in the Wildwood fair and won several firsts and seconds.

Birthday greetings to Marvin and Herman Duster-

hoft and to Elsie Norton.

Visitors at the Paul and Elsie Dusterhoft home were Mr. and Mrs. B. Hagen from Camrose.

Joe and Carole Kelly went to the supper and dance at Ramona. They have recently drilled a well by their home.

Get well wishes from the Whitby community to Mrs. John Solomon who is in an Edmonton hospital.

Weekend guests to Earl and Irene Sieble were Wilf and Margaret Sikora and

boys from Edmonton and Jack and Marilyn Worden and children from Tomahawk.

Irene Siebels is having a Tri Chem embroidery party on September 3 at 1:30 p.m. Anybody wishing to come are welcome.

More children die from accidents than from the next three causes of death put together--congenital malformation, pneumonia and cancer.

WHO'S NEW

Summary Regular Meeting Parkland School Committee

Regular meeting of the School Committee of the County of Parkland No. 31, held in the County Office on Tuesday, August 22. Minutes as recorded by the secretary-treasurer but not yet officially adopted by the school committee.

Present were Messrs. George Mann, L.N. Miller, R.A. Bailey, Peter Bakker, J.W. Fuhr, Maurice McCullagh, Cornelius Krabbe, Mrs. A.C. Kritzing, Mrs. E.P. Hower, and Mrs. Amelia Clark, School Committee Members, also Assistant Superintendent, Mr. A. R. Myhre and Assistant Secretary - Treasurer, A.W. Boychuk.

The minutes of the last meeting were adopted as presented.

It was moved and carried that the School Committee pay 50% of the cost of boarding students under school age requiring special programs. These students are to be recommended by the administration and approved by the School Committee for participation in accepted programs in authorized institutions.

It was moved and carried that the matter of providing transportation for pupils from the Winterburn Trailer Court be tabled until the next meeting pending a feasibility study of costs involved.

It was moved and carried that the report on the boundary change between Spruce Grove and Stony Plain be accepted and that the actions

of the Committee be approved.

Mr. A.R. Myhre advised that the contractor is proceeding with the excavating for the Brookwood Elementary School in Spruce Grove. A considerable amount of peat moss was uncovered at the south end where the parking area is to be situated. This matter has been brought to the attention of the architects who have called a site meeting to be held on Wednesday, August 23rd, with the engineers.

It was moved and carried that the School Committee express to the Architects, its concern regarding the soil conditions and elevations at the site of the proposed Brookwood Elementary School.

It was moved and carried that the items authorized by the School Buildings Board under the School Life Extension Program be proceeded with immediately.

The meeting re-assembled after lunch at 1:15 p.m. with everybody present except Mr. Ivan Vowk and Mr. Peter Bakker.

SCHOOL BUS CONTRACTORS

It was moved and carried that a School Bus Contractor who reaches age 65 during a school year will be required to retire as a contractor at the end of that school year. Mr. J.W. Fuhr, Mr. L.N. Miller and Mrs. Amelia Clark registered negative votes.

Mr. Peter Bakker entered the meeting at this time.

It was moved and carried that the Superintendent's Report be accepted.

CARETAKERS' SALARIES

Mrs. E.P. Hower advised that the Committee plans to hold another meeting on Caretakers' Salaries before making a presentation to the School Committee.

Mr. S. Hodgson, Architect, came to see the School Committee regarding deficiencies in the Spruce Grove School Addition.

It was moved and carried that the School Committee accept the addition to the Spruce Grove Upper Elementary and Junior High School in accordance with the recommendation of the architects and their Consultants subject to the following conditions: a) The deficiency list as presented by the architects to be rectified as soon as possible.

b) The General Contractor to relieve the owners of any liability for any possible damage to the flooring arising out of use of the building.

c) The General Contractor to file a written document guaranteeing satisfactory completion of the contract.

It was moved and carried that Administration be authorized to deal on the purchase of a 54 passenger school bus using Mr. Oliver Witmer's bus as a trade in, and to hire a driver for the bus until it can be advertised and awarded.

It was moved and carried that Mr. Philip Jungwirth be awarded School Bus No. 310 and following receipt of appraisals on Mr. Jungwirth's present Bus No. 404, that it be advertised according to the established procedure.

It was moved and carried that the request for Lyle Ekroth to attend the Entwistle School be denied and that the Grade XI girls be authorized to attend the Evansburg School if they meet the School Bus to Entwistle-Evansburg at Magnolia Corner on Highway 16 West.

It was moved and carried that the policy of awarding plaques for 15 years of service be extended to cover school bus operators.

Plea for Big Game Hides

Big game hunters in Alberta are being asked by the department of Indian affairs and northern development to save their hides this fall.

This department has started a hide collection program in an effort to help Indian craftsmen to achieve financial independence through a continuous craft production program. Lack of hides is often responsible for groups of craftsmen and individual craftsmen having to resign themselves to producing their products as they are able to afford suitable hide pieces (usually at a high price) rather than being able to develop a year-round program. The irony of the situation is that every year thousands of good hides are either left in the bush to rot or end up on garbage dumps. The department of Indian affairs is prepared to pay handling charges of \$3.00 for a moose or elk hide and \$1.50 for a deer hide, plus transportation costs. To be acknowledged, the hides must be tagged.

Lack of hides is one of the main reasons that Indian craft products fall far below the demand in Alberta and in other provinces during the tourist season. It is also the reason that the central marketing service in Ottawa is continually being frustrated in its attempts to meet the demand for these craft products.

The present hide collection program was actually started last year, but because of the lateness of the

season, it never reached its full potential. However, the national and historic parks branch donated all the buffalo and moose hides they obtained when they reduced these herds at Elk Island Park. Another 200 hides were sent from the Prince Albert district in Saskatchewan.

Some of the buffalo hides were distributed to Indian bands who wanted them for ceremonial dress, and the others were sent to Hobema where they were made into buffalo robes at the Muskawatchee tannery. This semi-automatic tannery was started about a year ago to serve the needs of native craftsmen throughout the province and to facilitate the production of clothing and footwear to fulfil the market demand for these articles. Custom-made clothing can be ordered through the Hobema 4 Band, Homemakers Craft Group, which is affiliated with the tannery.

The labour saving devices incorporated in the tannery complex eliminate much of the manual labour involved in the native smoke tanning process. The include a

wringer, a dehairing and defleshing machine, a fiber breaking machine and a vat for tumbling and washing the hides. These machines do not affect the quality of the hide, but they save a considerable amount of time, which cuts the cost of the finished product and increases production. Moose hides, for example, sell for between \$20 and \$25 each.

Anyone who would like to donate a hide to the cause of Indian craftsmen in Alberta should contact the fish and wildlife officer in the area in which the animal is shot, or ship the hide C.O.D. (cash on delivery) to the Indian Affairs Craft Training Center, 10007 - 105A Avenue, Edmonton.

Wabamun News

Mrs. Mary Sharuga returned recently from a trip abroad with her sister. They flew by jet to Scandinavia, Finland, through Germany with their longest stop in London where they spent hours shopping. It was a wonderful trip and they enjoyed every minute of it, as everyone was so friendly and helpful, which means a lot when one is in a strange country.

Mr. and Mrs. Bill Irwin of Hanmer, Ontario, called and spent a day or two with Mr. and Mrs. Walter Kosik.

Grandma Janice Cross returned last week from Mexico and California, and home via B.C. with her son Dick.

Mr. and Mrs. R. T. Ward, their son Dick and grandson Stephen are holidaying at Pincher Creek at the present time.

Mr. and Mrs. Julian Letendre and family are holidaying at Shuswap Lake, B.C. where they have been going every year for a number of years. This year is kind of special as they are accompanied by their daughter, Donna Mae, and new son-in-law, Constable D. Kutryk of the Calgary Police Force. Mr. and Mrs. Julian Letendre are former residents of Wabamun and are hoping after retirement to move back to the district.

Mr. and Mrs. C. Lobb of Red Deer and their daughter Mrs. W. Giffen of Whitehorse were visitors at the D. M. Roberts home last week. Mrs. Giffen is a former resident of Wabamun and would like to be remembered to her friends in the district.

Gloria and Brad Raicos stopped briefly at her mom and dad's, Margaret and Ron Cross, last week on their way to Long Island where they are spending a few days fishing and camping.

Mr. and Mrs. Walter Bab-

cock, Jeannette Lefebvre and Mr. and Mrs. Ray Letendre are attending a family reunion camp at Shuswap Lake. All are formally of Wabamun and district.

Mr. and Mrs. Fred Taylor and family of New York were visiting with Mr. and Mrs. D. M. Roberts recently, and were thoroughly enjoying holidaying in Canada.

Mr. Lorne Letendre is doing very good and is back home after spending a few days in the University hospital in Edmonton.

ANNOUNCING WEE COLLEGE AT THE PENTECOSTAL TABERNACLE OCTOBER - APRIL

Wee College is a very interesting Bible Kindergarten course for four-and-five-year-olds. It is a play-learning program. The children meet one morning a week during the Wee College year (Thursday morning from 9:30 to 11:30).

Interesting repetition is an important key to learning. Color association with a colored teaching Bible, properly colored toys, songs, charts and puppets help the children to learn the Bible parts -- Old Testament, New Testament, Books of Moses, Books of History, Books of Poetry, Major Prophets, Minor Prophets, Gospels, Paul's Letters, General Letters, Book of Prophecy. Names for the Bible and how the Bible was written are also included in this part.

Eleven Bible stories are learned by means of flashcards, folderama, pictures, charts, songs, tokens and illustrated properly colored verse sheets. The verse sheets are to be placed in the child's home where the child will see them often. It is surprising how quickly these are learned.

Puppets, flannelgraph, large pictures mounted on the right colors, flashcards, songs, etc. are used to tell the Bible stories to illustrate basic doctrines -- The Bible, the Law God, the Trinity, God-Creator, Man and Sin, Birth and Life of Christ, Crucifixion and the Resurrection, Ascension, Second Coming, Holy Spirit, Healing and Heaven.

There is more, too. If you send your child, you will soon see your child grow more interested in the Bible.

This course is undemonstrational -- Registration is open now.

DRAYTON VALLEY

Uniform Supports 'Agriculture Week'

The concept of 'Agriculture Week' has received enthusiastic support from Uniform.

'Agriculture Week', scheduled for October 3 to October 9, is one of the special projects announced earlier this summer by Alberta's minister of agriculture, the Hon. Hugh Horner, to emphasize the importance of agriculture in the province's economy and to improve communication between the farming community and other segments of society. It is not intended to take the place of year-round promotion programs carried out by the production, supply and retail sectors of the agricultural industry.

Here is how the president of Uniform, Dobsor Lee, evaluates 'Agriculture Week'. "I see 'Agriculture Week' as a commendable effort to create a better understanding by society of the importance of our industry in the total economy of the province. At the same time we want to make consumers aware of the wide variety of fine quality foods grown here in Alberta. Such awareness will, hopefully, reduce the demand for imported items that can be, and are being, produced here.

"It is hoped, says Mr. Lee, "that 'Agriculture Week' will focus attention on our industry and its products; and that it will develop as the focal point of a year-

round program of communication between consumers and the agricultural society."

C.A. Cheshire, head of the Alberta department of agriculture's district agricultural branch and co-ordinator of 'Agriculture Week', reports that the commodity groups and retailers that have been contacted have given enthusiastic support to the idea. The retailers are going to include information on 'Agriculture Week' in their advertising and promotion material throughout the province. The commodity groups are prepared to help the retailers and the news media to publicize the role their groups play in agriculture.

The province's daily newspapers are considering putting out an agricultural supplement during 'Agriculture Week'. Mr. Cheshire says two receptions for the news media have been arranged to launch the event. One will be held in Edmonton on the evening of October 2 and the other in Calgary on October 3.

The Alberta department of agriculture's role in 'Agriculture Week' has been mainly one of co-ordination. It has invited various sectors of the industry to submit ideas and plans showing the parts they are playing in agriculture's contribution to the overall welfare of this province.

Rev. Browns Reynolds

Evangelist Coming to Town

Rev. Browns Reynolds, children's evangelist, will be at the Pentecostal Tabernacle in Drayton Valley from Monday, September 17th to Friday, September 22nd.

Mr. Reynolds uses costumes, magic and stories to illustrate his services. All children are welcome to the services at 7:00 p.m. daily.

Gainford News

Mrs. Anna Klavansky returned home Wednesday after a short stay in the Drayton Valley hospital. Bill Kere-liuk is also home from hospital.

The weather cooperated for the Holosney Auction Sale August 12, with the Royal Purple Ladies serving lunch to a large crowd.

Fish hooks are much more dangerous than most people think. Jimmie Meronovich managed to get one lodged in his head on Tuesday, which caused him a lot of pain and a trip to the doctor.

The James Hauser family returned yesterday from a few days' vacation. The J.W. Millars are enjoying a holiday while Mrs. Gene Forbes looks after the post office and store.

The Bob Pezzot family of Drayton Valley visited in Gainford last Thursday.

Mr. and Mrs. Norm Coulthard (nee Diane McKee) and Jennifer made a tour of B.C. and spent some time with Jennifer's grandparents, Mr. and Mrs. Wilf Quigg.

One of our readers met the former Clara Rose in Edmonton last week. The Roses were residents in the Gainford district a few years ago. Clara said she had been out to her childhood home recently, but was unable to even find where the buildings had been, due to many changes in the area.

Wednesday the Parkland Recreation Group held hobby classes and special programs for the children in the Gainford Hall. In the evening a program of skits was held for the parents. Music was supplied by the Stony Plain High School band.

Dudley Hunt visited with his sister Mrs. Gwen Knowles in Edmonton last Friday.

Bob, Nola and Darren Matheson of St. Albert were visitors at the Linda Walschuk home on Sunday. While here they spent some time with Bob's parents.

In 1971, 1,000 bushels of seed of a new Durum variety, Wascana, was released to growers. Stocks for this year have been increased to about 60,000 bushels. By 1973, some 1.5 to two million bushels will be available for farmers. Plant breeders estimate financial gains from Wascana's high yield will net growers in Saskatchewan alone an extra seven million dollars per year.

Neptune Club Swimmers Compete in Provincials

Twenty-three swimmers from the Neptune Swim Club represented Drayton Valley in the Provincial Swim Meet August 26 and 27 in Calgary, placing 12th in team standings out of 34 teams overall.

MAR NEL'S LADIES WEAR
DRAYTON VALLEY, ALBERTA

D.V. Highlights

BY MRS. EDITH DEBY

Mr. and Mrs. D.W. Glen of Pincher Creek were in town last week as the guests of Mr. and Mrs. Jack McLean. The Glens spend the winter months in Arizona where Mr. Glen follows his hobby of rock hunting.

Congratulations to Mrs. Stanley Luchak, nee Lyn Burrows, who has just been appointed head nurse in a section of the Women's Surgical Ward at the Royal Alexandra Hospital.

The Emergency Measures Operation is in need of ladies to undertake a home nursing course. Watch this paper for further details.

Mr. and Mrs. Stanley Hall will return to Cornwall, England, after a month-long visit with their son-in-law and daughter, Mr. and Mrs. Alan Roberts.

Sincere sympathy goes to all relatives of the late Mr. Stanly Mohn.

Mr. and Mrs. Leslie Brown and family spent their summer touring eastern Canada. There were minor disappointments -- Newfoundland had to be passed up and Prince Edward Island had rain -- but the trip was a wonderful experience for adults and children alike.

Aren't you impressed with the nonchalant way people of our town get about the world? Already some are making plans for Christmas holidays which include Australia for Mr. and Mrs. Lou Matlock and London for Mr. and Mrs.

Arthur Durham and Charlotte.

Father Lynch will leave this week to take up his duties in Wetaskiwin. Father Lynch deserves the popularity he has enjoyed while in our town. It has been a pleasure to have had you with us, Father Lynch.

Best wishes for a happy future go to Mr. and Mrs. James Cathrea, nee Joanne Cotton, who were married on Saturday.

A warm welcome to Mr. and Mrs. Edward Feniak and family who have come back to live in our town. Mr. Feniak will be working with Lyle Instrument Services.

Best wishes for future happiness go to Mr. and Mrs. Donald Bouchard who were married here on Thursday of last week. The groom is the son of Mr. and Mrs. Alfred Bouchard and the bride is the daughter of Mr. and Mrs. Robert Simon all of Drayton Valley.

Mr. Jim Erickson, of New York, has been visiting with the Arvett Ericksons. The men are cousins.

HOW SAFE ARE YOUR PRESERVES

The message has been coming through this past few weeks, loud and clear -- you ladies are busy with canning, freezing and making pickles.

PRESSURE COOKER

Let's take a look at some preserving methods. One of the things that is quite common is the canning of meats and low acid vegetables such as corn, peas and beans in a boiling water bath. There have been a number of incidences of food poisoning using the boiling water bath and Home Economists are recommending a pressure cooker be used.

The reason is that spore forming, heat resistant organism may be present. These can be destroyed by heating the food to a temperature higher than boiling. This can only be accomplished by using a pressure cooker. No matter how long you

boil water, it never reaches a temperature above 212 degrees F.

However, the organisms do not seem to function in a high acidic medium. We consider such foods as fruits and tomatoes as high acid foods. They can be safely processed in a boiling water bath.

OPEN KETTLE METHOD

The open kettle method in which the food is cooked in an open kettle and then transferred to sterile jars and sealed is definitely not recommended for low acid vegetables. There is an additional danger of contamination if utensils, jars and spoons are not sterile, or if the liquid does not reach the top of the jar. A layer of unsterile air is present and could cause spoilage. Success with the open kettle method canning is largely a matter of sanitation and of using the method only for those foods which can be satisfactorily canned by boiling temperatures.

BLANCHING

When freezing always blanch your vegetables before placing in freezer. The

quality is best maintained when the food has been blanched for the recommended length of time. Freezing alone does not stop the action of micro-organisms and enzymes and enzymes which cause food to spoil. In fruits and high acid vegetables there is quite a marked deterioration in texture, flavor

and color. When you have spent so much time and effort to produce a good product, why risk obtaining a poor result by skipping one step in the preparation of the food for freezing.

For complete information on canning and freezing foods please contact my office -- Box 510, Stony Plain.

DRAYTON VALLEY

Weekly Livestock Report

SUMMARY: This week's receipts were slightly higher but considerably below last year. Sales were mostly replacement cattle and calves. Slaughter steers and heifers were generally steady under very close sorting as to the degree of finish. Overfinished kinds sharply discounted. Good cows 50 higher most of this week. Bulls steady. Veal calves lower. Replacement prices generally steady throughout.

CLOSING QUOTATIONS

SLAUGHTER CATTLE --

Steers: Choice 32-32.50, odd sale higher, good 31-32, medium 29 - 30. Heifers: Choice 30-30.50, odd sale higher, good 29-30, medium 28-29. Cows: Good 25-25.50, sales to 26, medium 24-25, canners and cutters 20-23.50, shells 15-18. Bulls: Good 27-28.50, odd sale higher, fat and boner bulls 24-27.

REPLACEMENT CATTLE AND CALVES

Good feeder steers (575-750 lbs.) 38-44, (750 lbs. & up) 34-38, Good feeder heifers (575 lbs. & up) 32-37, com-

mon to medium 27-33. Stock cows 21-27.50. Good stock steer calves (300-400 lbs.) 50-58, (400-550 lbs.) 44-50, common to medium 35-45. Good stock heifer calves (300-550 lbs.) 36-44, common to medium 30-36.

KILLING CALVES:

Good to choice veal (300 lbs. & under) 45-48. Good to choice butcher calves (300-450 lbs.) 36-43, (450 lbs. & up) 30 - 36.

HOGS: Edmonton Stockyard (E.S.Y.) butcher hogs sold progressively higher from 35.55 Monday to 37.40 Tuesday to 37.45 Wednesday to close at 38.15 base price Thursday. Sows 25.40 to 25.60 dr.wt. Boars \$2.00 to \$14.25 per cwt., depending on weight and quality. 950 feeder hogs sold higher Tuesday and Thursday afternoon, ranging from 35.50 each for 90 lb. feeders down to 30.00 per cwt. for 150 lb feeders. Weaners and light feeders 16.00-17.00 each for 25# weaners, 19.50-20.50 each for 40# weaners, and 29.50 each for 80# feeders.

SHEEP & LAMPS: Good to choice butcher lambs generally steady 25-26.50 cwt.

Park Court News

A bridal shower in honor of Miss Sharon Udchitz was held in the hall on Sunday. Her marriage to Mr. Terry Kremeniuk took place Saturday. Bouquets of summer flowers decorated the table while tiny bouquets in pottery vases hung over Sharon as she opened her many lovely gifts. A lunch was served by relatives and the Gay Gatherers.

Mr. and Mrs. Harvey Marchand, Ricky and Dean spent a week holidaying in B.C., returning from the coast by way of Penticton.

Doug, Caroline and Ronnie Stewart are currently spending a few days holidaying in Edmonton.

Mrs. Ron Lutz is now home from hospital and feeling fine again.

Mr. Ray Fausak spent a week holidaying at Vancouver.

Tomahawk News

The annual Darwell fair was on Saturday, August 19 to which Mrs. Marie Schoepp entered a few items, such as baking, crocheting, knitting, jelly and flowers. She was a winner of four firsts and three seconds, and received prizes.

The Drayton Valley W.I. Flower & Horticultural Show was held August 23rd and three ladies from Tomahawk came home winners. Florence Harrison entered petunias and won first; Mrs. Marie Schoepp won 8 firsts, 2 seconds, 3 thirds and a beautiful crome plate with the inscription 'Drayton Valley W.I. Flower and Horticultural Show, 1972 Grand Aggregate Vegetables'. Mrs. Josephine Namchuck won 4 firsts, 7 seconds and 4 thirds and also a lovely chrome plate for her floral entries. Congratulations ladies.

The Tomahawk Ladies Aid met at Lenora Weik's, August 24th. Seven ladies were present. Thanks are extended to Jane Zander and Delores Pischke for cleaning the church for August. The next meeting will be held at Hilda Zander's in September.

Congratulations to Ernie Zander, son Mr. and Mrs. Charlie Zander, and Diana Doblanko of Edmonton who have just become engaged. They plan to get married next year.

Congratulations also go to Ben Richter of Tomahawk and Irene Sawchuk of Seba Beach who have announced their engagement.

There was a grand birthday party for a 'grand lady' at the Devon Hall on Sunday, August 20th. Mrs. Combs was 80 years young and her family surprised her with an open-house birthday party. She received a beautiful lazy boy chair from the family, as well as a lot of other lovely gifts and cards. Her son and daughter-in-law, Allen and Hilda from Ottawa were present. Many people were there to wish her a happy birthday and several people from Tomahawk attended. A

delicious lunch was served and the birthday lady served the beautifully decorated birthday cake. Mrs. Combs wishes to thank everyone for coming, for the gifts and cards. She said it was just wonderful to see so many of her friends. Mr. and Mrs. Combs ran the Co-op store for many years in Tomahawk and Mrs. Combs was post mistress for a long time, she now resides in Devon.

Twelve youths from the Stony Plain area came to Tomahawk with the 'Traveling Playground' on August 21st and 22nd. The younger children all had a fun-time playing games, practising skits, and doing crafts. The ladies also enjoyed learning some new crafts. For lunch on Monday they had a weiner roast. Tuesday evening the travelling playground came to an end with a potluck supper and skits put on by the children. As all the instructors had taken band concert at school, they were a band as well as instructors. They played several fine pieces for the grand finale of the evening. All twelve instructors are planning to go to University or NAIT this fall. Their next stop was Rocky Rapids.

NEWS NOTES FROM THE D.A.

Phone Stony Plain 777-2231, 8:30 a.m. - 5:00p.m.
E.C. LOWE TOM BROWN
District Agriculturalist Asst. Dist. Agriculturalist
In Drayton Valley Wednesdays at Sekura Auctions
From 1:00 p.m. to 4:00 p.m.

What if someone told you you can harvest feed barley at 25% moisture and it would make better feed.

What if someone told you this grain would not heat and spoil.

There's talk about a chemical which consists mainly of acetic and propionic acid which when added to high moisture grain, not only prevents deterioration but improves feed quality. Although test results are limited, more information is available from your D.A. office.

LANNATE

Lannate was the chemical used in the control of the Bertha armyworm. There have been many questions asked about the effect of this chemical on --

- Wildlife
- Cattle
- Gardens
- Oil extracted from sprayed rapeseed crops

With so much of our thinking now oriented around 'pollution' these are justifi-

able concerns. Some facts are: There have been no confirmed cases of wildlife or birds being killed by Lannate. - Lannate was developed by Dupont Chemical Co. and has been used on vegetable crops in the U.S. for three years and two years in Canada. Because it breaks down into carbon dioxide ammonia and water very rapidly, tomatoes that have been sprayed can be eaten the next day and only a day or two is required before cabbage is safe to eat. - Rapeseed oil will in no way be affected by Lannate for two reasons. One, the chemical will be degraded long before the crop is combined, secondly Lannate will not dissolve in fats or oils, so it will not be found in rapeseed oil. -- So don't hesitate to use rapeseed oil, it's the greatest cooking oil as it remains pure as a summer breeze.

Yea, the crop doth look bountiful and the good Lord willing, our bins will run-neth over.

A few things should be considered when preparing a bin for storage. To prevent fungal growth and avoid providing a place for grain insects to start breeding. -- 1. Repairing any leaks in the bins usually carried out but many do not thoroughly remove old grain and dust from the walls. 2. If insects are present, spray with an insecticide to eliminate them. eg.: 1 pint malathion per 2 gallons of water at rate of 1 gallon per 1000 feet a week before

filling. 3. Clean up spilled grain around bins.

If your permanent storage will not accommodate your crop, several ideas have been explored for temporary storage. These include--

1. Squares or rings of bales
2. Snow fencing and paper
3. Plywood rings
4. Plank bins are used by bulk fertilizer dealers - no nails needed.

Maybe some of the above suggestions will apply to your situation.

Entwistle News

Entwistle Fire Dept. are holding its annual Firemen's Ball on September 30th in the Entwistle Hall. Details will be announced in next news report.

Visiting at the home of Mr. and Mrs. Kenneth Hoople was their daughter Shirley and family from Sydney, Nova Scotia. They were on their way to Masset, B.C. on Queen Charlotte Island where her husband, James Greentree, has taken up his new posting.

Mrs. Maggie Hoople extends a sincere thanks to her many friends for the cards and kind thoughts shown her during the passing of her mother on August 9.

Mr. Ray Darlington, George Bullock's nephew, and Mr. Selwyn George from Montgomeryshire, Wales, were guests at the Bullock home for two weeks. While here they visited Edmonton during the Klondike days festivities and attended the Sunday promenade which they enjoyed. They also went to the Big Horn Dam where Wayne Bullock is working and visited with him and his family. The two visitors couldn't get over the wide open country and the amount of timber that there is here.

Also visiting the Bullocks recently were Mr. and Mrs. Pete Nilsen of Edmonton, Mrs. Bullock's brother and

family of Kamloops, B.C. and Mr. and Mrs. Ing and boys of Breton.

Mr. and Mrs. Fred Harris attended a family reunion at Delbourn, Alberta recently. There were about 50 present and they reported as having a wonderful time.

Mr. Hubert Forecast, Eleanor and John Oliver and Muriel Sanford motored to Fort McMurray recently to visit Gordon Oliver who is working there. They also saw Lorne Skare, Evelyn and Ronnie Wolfe and family. We enjoyed our short trip and a visit and tour of the tar sands.

Mrs. Oliver was in Edmonton on Wednesday the 23rd to visit a friend in an Edmonton hospital.

Visitors at the Oliver home recently were Mr. and Mrs. Bert Corbett and Irma of Edmonton. They were out to see Randy Corbett who has been staying at the Oliver home and working for the summer at the creamery in Evansburg.

Mr. and Mrs. Bill Howes and three children from Derby, England, have been visiting at the LaRose home. Mrs. Howes is a sister to Mrs. LaRose. Mr. Howes has returned to England while Mrs. Howes and children are staying till September 9th.

Mrs. Alice Stevens of North Battleford, Sask. is back at the LaRose home for a few weeks.

Allan and Betty Buckler and family spent a lovely week at Salmon Arm, B.C. visiting Betty's aunt.

Mae and John Moore and family spent a very enjoyable day at the Alberta Game Farm recently.

Donna Knapp of Glendon spent two weeks with Teddi Moore this summer.

Toots and Bill Relling and girls spent a few days at Miette Hot Springs before the children have to return to school.

Little Karen Walters celebrated her 5th birthday with her many friends.

Records Established For Grain Movements

In the 1971-72 crop year many new records were established for the movement of grain in Canada. Prairie grain producers delivered record quantities to country elevators and these facilities shipped an all time high volume of grain to port terminals. Canadian exports of the six principal grains surpassed the record established during the previous crop year to set a new export record.

COUNTRY ELEVATOR RECEIPTS

Deliveries of the six principal grains by prairie producers to the country elevator system established an all time high at 919 million bushels, an increase of 20% over the previous year. Wheat delivered to prairie elevators totalled 432 million bushels, an increase of 35% over 1970-71. In addition, durum wheat deliveries were 76 million bushels, accounting for a 291 million showed a rise of 24% and rye at 14 million increased by 23%. A light increase in rapeseed receipts at country elevators was accompanied by decreases in both oats and flaxseed.

In 1971-72 Alberta grain producers delivered 224 million bushels of grain to country elevators or 24% of the total delivered to elevators across the prairies. Eighteen million bushels of rapeseed represented the largest portion of one prairie grain delivered in Alberta at 35%.

ELEVATOR SHIPMENTS

Country elevator shipments of the six principal grains in 1971-72 established a new record as 997 million bushels moved to terminal positions, a 22% increase over the previous crop year. Shipments from Alberta elevators totalled 263 million bushels and accounted for 26% of prairie shipments. Across the prairies, barley, durum and wheat shipments showed the largest increase above the previous year's levels with increases of 35%, 27% and 26% respectively. Prairie elevator shipments of rapeseed were 35% from Alberta, barley was 32%, oats were 27%, and wheat was 25%.

Alberta's Ability To be Determined

Alberta's ability to develop extensive secondary industry will be determined in the next four years, Progressive Conservative candidate Joe Clark told a meeting in Coleman Saturday, August 19.

"All experts agree that Canada must develop a new National Industrial Policy," Clark said. "What they disagree about is what industries will go where." A National Industrial Policy would select areas where particular kinds of industry are to be encouraged, and then would shape laws and policy to achieve that goal.

Clark said that traditional national policy has been to concentrate secondary industry in central Canada, and leave the West for resource development and tourism. "If that traditional view prevails again, the decks will be stacked against secondary industrial development in the

West."

Clark believes Alberta would suffer particularly, because "we have the greatest potential for secondary industry -- so we have the most to lose."

Alberta has a natural capacity for processing raw materials. The PC candidate suggested that other opportunities are being created by technical changes which let certain industries decentralize. He said increased Pacific trade would open still more possibilities.

"We're a different province than we were 25 years ago. Our biggest challenge is to make Ottawa recognize the difference."

Clark said the question was bound to be an issue in the next federal election "because the two parties clearly disagree about the future of Western Canada."

Amendments to The Workmen's Compensation Act, effective May 1, 1972, now provide

Increased benefits for injured workmen

1. TOTAL DISABILITY

- (a) Maximum full compensation for injured workmen who have annual earnings of not less than \$7,600, is now \$15.62 per day or \$109.34 per week. The previous maximum compensation payable was \$13.56 per day or \$94.92 per week.

Workmen earning less than \$7,600 per year will be paid on the basis of their earnings at the time of the accident.

A workman employed in an industry under the Act is entitled to compensation for personal injury as the result of an accident arising out of and in the course of his employment. Compensation is based on 75% of his average weekly earnings (up to maximum annual earnings of \$7,600) at the time of the accident.

- (b) Permanent disability pensions will be paid on the same basis as set out in paragraph (a) above, according to the medical assessment of the degree of disability.

- (c) Minimum compensation payable for temporary total disability has been raised from \$40.00 to \$50.00 per week. Those whose average earnings are less than \$50.00 per week will receive the full amount of their earnings while they are totally disabled.

CLAIMS RESULTING FROM ACCIDENTS WHICH OCCURRED PRIOR TO MAY 1, 1972, ARE NOT AFFECTED BY THE ABOVE INCREASES

2. MINIMUM PENSION

Effective May 1, 1972, all pensions for permanent total disability, regardless of date of accident, are to be not less than \$225.00 per month and a proportionate amount in the case of permanent partial disability assessed at more than 15%. The previous minimum pension for total disability was \$175.00 per month.

3. COVERAGE EXTENDED

The prohibition against payment of compensation to a person committed to jail is removed and compensation is now payable to persons confined in a jail or institution who suffer accidents at work or work training projects inside or outside the place of confinement.

Burtonsville News

There was no news last week as the correspondent was away on a 10-day holiday to B.C. and Alberta. They travelled the Yellowhead to Prince George and then south to Kelowna to pick fruit. They visited Mr. and Mrs. Walter Strocher of Rutland, B.C., formerly of Tomahawk, and returned home by the David Thompson highway, visiting friends and relatives at Rocky Mountain House.

Alf Bailey of Ontario spent last week with his brother, Sam Bailey.

Doris and Stanley MacDougall enjoyed many visitors lately -- Mrs. Gray, Mrs. Wiseman and a friend from Drayton Valley; Mrs. Bailey and daughter from Red Deer; Agnes and Horace Shepherd and Wayne from Edson.

Mr. and Mrs. Arthur Brown and Roy from Whitehorse renewed acquaintances in the district recently. They came as newlyweds to Burtonsville 29 years ago.

On Saturday Norah MacDougall and Mr. and Mrs. Joy Sr. and family were blueberry picking and visited at Stanley MacDougall's.

Nr. and Mrs. Allan Walker of Edmonton visited Saturday at Lil and Jim Bailey's. Ettie Walker is Lil's niece. They also went blueberry picking.

Stanley, Doris and Ken MacDougall visited at Mac and Marie MacDougall's on Sunday.

Father Lynch Goes To Wetaskiwin

Fr. Edward Lynch, priest of St. Anthony's parish in Drayton Valley for the past seven years, was transferred August 26th to Wetaskiwin Sacred Heart Parish.

A Lowell, Massachusetts man by birth and schooling, Father Lynch joined the U.S. Navy at the age of 18, serving one year active duty and six years inactive duty.

Following his years of service he entered St. Francis Xavier in Nova Scotia, graduating with a B.Sc., majoring in geology, in 1953 and a B.Ed. in 1955.

Entering St. Joseph's Seminary in St. Albert in 1955, he was ordained a priest in 1959 in Hamilton, Massachusetts. He then taught at St. Joe's and St. Mary's High Schools in Edmonton before coming to Drayton Valley as a priest in August

of 1965.

A geologist, priest, and teacher by training and education, Father Lynch has become actively involved in the community through such interests in flying, skiing, golfing, playing tennis, badminton and basketball.

His home in the rectory was an unofficial drop-in centre, and his office saw many a problem solved.

Father Matthias Kuefler of Edmonton is his predecessor and will be continuing services in the church and school.

Tizzy

"I'm not loafing; I'm on telephone sentry duty!"

Berrymoor News

On August 19th at the Lindale Hall Lester and Dorothy Cropley were honored on the occasion of their 25th wedding anniversary. A family supper was followed by an open house and a dance. A good turnout of relatives and friends joined in the festivities and made the evening an enjoyable one.

Mrs. George Martin has had her neice and two daughters from Washington visiting at her home recently.

Mrs. Lil Thorsen has been spending a few days at the home of her son and his wife, Mr. and Mrs. Brian Thorsen.

Mr. and Mrs. Albert Pischke and family were Sunday visitors at the home of Mr. and Mrs. Charles Martin of Rocky Mountain House.

Mr. and Mrs. Ed Van Embler and family motored to Edmonton and Gainford on Sunday. They also took in the stock car races at Drayton Valley on their way home.

Best wishes to Mr. and Mrs. Mark Hooks, who celebrated their 25th wedding anniversary on August 25th at the community hall in Warburg. Mr. and Mrs. Hooks are well known especially by members of the Warburg branch of the Legion and their wives.

From Williams Lake, B.C. former Berrymoor residents, Mr. and Mrs. Tom Campbell and daughters,

visited friends and relatives last week.

A former teacher of the Lindale school, Mr. Ronald Williams of Heisler, Alberta visited in this area recently.

After spending a couple of weeks holiday at home Earl and Gerald Martin returned to their school at Red Deer. They were accompanied by their parents, Mr. and Mrs. Donald Martin and their sister, Mrs. Gordon Tryon.

The Berrymoor Three B's Club held a clean up day at the cemetery on August 26th but were unable to have a meeting because of the very poor attendance. A meeting has been called for the evening of August 29th at the home of Mrs. Bernice Lietz and it is hoped that more ladies will be on hand this time.

Keephills News

George and Betty Strassburger and their four little girls from Edmonton were visiting here on Thursday.

Doug and Linda Walker returned to Calgary, August 18th after two weeks with Linda's parents, Mr. and Mrs. W. Clark.

Malinda Draves is visiting at Della Tattersall's while her parents, Mr. and Mrs. H. Draves take a week's holiday in B.C.

Neil and Norma Raymond and family of Edmonton were visiting relations here on Thursday.

Mr. Fred Greenhough has been in hospital for the past two weeks and showing some improvement.

Several in the district are fighting colds since the wet weather.

Mel and Ila Edge were in the district for a few days and to pick up their children, Melodie and Michael, who have spent the last five weeks here on holidays. Before returning home they all spent a few days at the lake.

Mr. and Mrs. Frank Campbell and some friends visited Roy and Ellen Raymond on Sunday.

In 1866, the first through train for the Pacific left Montreal on June 28th and arrived at Port Moody on July 4th. Daily mail service over the 3,740 miles across Canada began on that date.

Send your children Back To School in garments cleaned to look like new. Let us clean, press and finish the whole family's wardrobe this fall!

Education Boom

High birth rates and substantial immigration, combined with increasing enrolment ratios, have produced the greatest educational boom during the past twenty years in Canada's history. At colleges and universities the boom will be an ongoing phenomenon through the 1980's.

of the population has made on elementary, secondary, and post-secondary enrolment for the years 1961, 1967 and estimates for 1980. Historical data on enrolment and recent projections of enrolment to 1980 made for the Economic Council of Canada are also shown.

The first phase of the education boom was a surge in elementary school enrol-

ment when the post-war babies started reaching school age in the early 1950's. Between 1951 and 1961, enrolment in the elementary grades rose by 50 per cent. from 2.2 to 3.3 million students. Enrolment continued to increase through the decade of the 1960's, but now the declining number of births has begun to show. There have actually been some declines in the number of enrolments in the lowest grades during recent years, and projections for the Economic Council of Canada indicate that primary school enrolment will soon reach a peak that is not likely to be exceeded for about a decade.

Enrolment in secondary schools has boomed as a result of two favourable factors: rising numbers in the relevant (14 to 17 year old) age group and an increased tendency to keep going to school. Enrolments increased from 500,000 students in 1953 to 1 million in 1961 and to 1.6 million by 1970. They are expected to continue rising to the mid-1970's, before tapering off slightly.

The post-secondary school thrust is in high gear. Since the mid-1950's there have been increases in the numbers of full time university students. In the sixties, a relatively new type of educational facility -- non-university institutions usually referred to as community colleges -- has experienced the most rapid gains in enrolment among post-secondary schools. Large demands on the universities and community colleges are expected to continue unabated throughout the 1970's with the absolute number of enrolments rising from approximately 300,000 in the school year 1969-1970 to more than 1.1 million by 1980. Not included in this total are part-time university enrolments which have an even more impressive record, rising from 4,000 students in the early 1950's to nearly 100,000 in the school year 1967-1968.

The sharp increase in the educational attainment of new entrants to the labour force provides a reservoir of talent that will enhance future productivity gains. At the same time it poses a challenge to employers -- in commerce, industry and government -- to absorb a very large number of well-educated young people. The challenge falls mainly to the private sector which employed 79 per cent of those employed in 1961 and 77 per cent in 1970.

Now -- Hydro-Cooled Corn

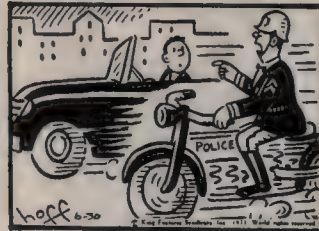

Have you ever tasted southern Alberta corn on the cob? Do you know the difference between corn that has been hydro-cooled and corn that has not been hydro-cooled?

Southern Alberta corn is noted for its excellent quality and flavour. Corn needs lots of hot sunny days to mature, which is typical weather for the southern part of the province, particularly around Medicine Hat. Corn harvesting in that part of the province usually begins the first week of August, but because of this year's unseasonably cool weather, harvesting will not start until early in the second week. The main crop is expected to be on retail shelves throughout Alberta during the third and fourth weeks of the month.

Hydro-cooled corn is corn that has had the field heat removed before it is sold to the consumer. This is done by conveying the corn on a slatted belt through a sprinkler system where the cobs are sprayed with ice-cold water. If this field heat is not removed it can increase to the point where corn that was picked during an 86 degree F. temperature has an internal heat 24 hours later of 110 degrees F. It is important to remove the field heat because it causes the sugar content of the product to break down and turn into starch. It is the sugar content of corn that gives it its unique sweet flavour. If corn which was harvested at 86 degrees F. is not cooled, about half the sugar content will be lost within 24 hours.

Sandi Hammer, products promotion officer with the Alberta department of agriculture, advises anyone buying corn this summer to make sure that it has been kept refrigerated or on ice in the grocery store, and to check to see whether it was hydro-cooled. There are several firms in southern Alberta which will be hydro-cooling several hundred carloads of corn this season. Miss Hammer also advises using the corn as soon after you buy it as possible. If, for some reason you have to keep it for a day or two, the best way to preserve its quality and flavour is to leave the husks on the ears, wrap them in a damp cloth and put them in the refrigerator crisper.

THANK YOU

I would like to express my sincere thanks and heartfelt appreciation to doctors, nurses and staff of the Drayton Valley Municipal Hospital for medical services and kindness given to me while I was in hospital.

D. Bezludny

We would like to thank all our many friends for the lovely gifts and the wonderful evening put on for us on our recent departure.

Frank & Claudette Novosel

The members of the Drayton Valley W.I. would like to thank all those who helped in any way to make the Flower and Horticultural Show a success, especially Drayton Hardware, Reeds Country Garden of Camrose, The Hudson Bay Store, Drayton Valley Hotel and Valley House of Flowers for trophies and Pembina Drug for the Door Prize.

30c

I would like to thank all those who visited me in hospital. Special thanks to all those who brought fruit and flowers also a special thanks to the nurses and staff.

John Suffron

IN MEMORIAM

In loving memory of Walter Durham who left us August 25, 1970.

In our hearts you will always stay,
Loved and remembered day by day;
Memories are treasures no one can steal,
Death is a heartache no one can heal.
Life must go on, we know its true,
But it's not the same since we lost you.
You left quietly without goodbye,
But memories of you will never die.
Always remembered and sadly missed by wife Marjorie and family.

PERSONAL

Have you a complexion problem with acne (pimples) or simple boils? Let Hydrosol help you clear it up. Effective on dry or oily skin. Clear, colorless, use day or night. Many pleased users. Only \$1.95 one ounce; \$3.95 three ounces and \$1.00 for medicated soap at Valley Drug & Pembina Drug.

For an attractive smile, use Tartaroff to remove stains from teeth. New formula, powder form, leaves them shining white. Special with Tooth Brush only 98¢ at Valley Drug & Pembina Drug.

Jehovah's Witness Attend Convention

Forty members from the Drayton Valley congregation of Jehovah's Witnesses have returned from a four-day District Convention held in Edmonton at the Edmonton Gardens last week, with a peak attendance of 6565 on Sunday.

Mr. K. Hayhurst, presiding minister of the local congregation, reports that in the last four years about 150,000 new ministers have been baptized worldwide each year. He said there

were 120 new ministers ordained at the Edmonton convention. The local congregation was represented in this way too, as Ernst Freund, Donna Freund, and Martha Blatkewicz were among those new ministers baptized by total water immersion.

Mr. Hayhurst said the keynote address of the convention, was "Divine Rulership -- Are We for It or Against It?" delivered by Mr. G.W. Sallis, of Toronto.

NOTICE - Due to the long weekend we will be closed Saturday, September 2nd. Dutch & Edith's Beauty Salon

THE LIQUOR LICENSING ACT (PART 3) (Section 90 (4)) Notice of Hearing of Liquor Application

The following notice is published in accordance with the provisions of the Liquor Licensing Act: 1. The area comprising The Hamlet of Tomahawk - boundaries being all of that area lying within Sections 1 to 4, 9 to 16, 21 to 28 inclusive, Range 6, Township 51 and Sections 33 to 36 inclusive Range 6, Township 50, also Sections 5 to 8, 17 to 20 inclusive, 29, 30, Range 5, Township 51 and Sections 31, 32, Range 5, Township 50. All West of the 5th Meridian has been designated as a local option area for the purposes of the above Act.

2. The TENTH day of OCTOBER 1972, has been set as the date upon which the Board will consider applications for licenses under the above Act, unless prior to that date the Board has received a petition signed by 500 electors of the above described local option area or 10 per cent of the number of persons named on the latest lists of electors for an election of a member or members to the Legislative Assembly from the area comprising the local option area, whichever is the lesser number, requesting that the Lieutenant Governor in Council submit to a vote of the electors of the local option area a question in respect of the class of license applied for.

Dated at Edmonton, This EIGHTEENTH day of AUGUST 1972.

A.D. ELLIOTT
Chairman
The Alberta Liquor Control Board.

NOTE: Petitions requesting a plebiscite vote must be on the official petition forms which may be obtained from The Alberta Liquor Control Board, 12360 - 142 Street, Edmonton, T5J 2R4, together with instructions for the submission of a petition.
